**RE: EARTHOIL TO TRANSFER LICHFIELD OPERATIONS**

Earthoil would like to announce to all its valued customers that it is relocating its Lichfield warehousing operations to parent company Treatt PLC's headquarters in Bury St Edmunds, Suffolk.

The move will begin next month to a dedicated building - which has been made available for all organic and fair trade oils - within Treatt-owned premises. The move is motivated by a strategic plan to introduce further efficiencies and maximise synergies between Earthoil and Treatt.

I carry on as Earthoil's Sales Director, still based in Lichfield and Laurie Marlow continues alongside me in sales until her maternity leave on 7<sup>th</sup> August. Treatt will also be ensuring that we have an increased sales team to further support Earthoil and in addition, new Earthoil-dedicated sales staff will be introduced to you in the coming months.

Earthoil's usual phone and fax numbers (above) stay in place and please continue to place orders and sample requests as per your current method. Earthoil is committed to ensuring that the transfer of its operations has no impact on the day-to-day business with our customers and wishes to reassure you that our primary goal is to continue to provide quality organic and fair trade oils, along with the personal service you have come to expect of us.

Earthoil is confident that this is a positive move for the company and more importantly, our customers - as we tap into Treatt's efficient warehousing operations and technical expertise.

Please do not hesitate to contact me if you have any questions or require further information on the above.

Yours sincerely

Campbell Walter  
Sales & Marketing Director  
Earthoil Plantations Limited
